

## 8 Miles South of Bath: Rural GP dispensing and training practice seeks Associate GP

### **Mendip Country Practice, Church Street, Coleford, BA3 5NQ**

We are a very rural dispensing and training practice with 5900 patients and growing! We have 3 partners, 2 Associate GPs, lots of trainees and medical students, and work as an excellent team. A progressive practice, we are high QoF achieving, and were one of the first in Somerset to adopt a triage appointment system that is working well for us, and continues to evolve. We are looking for an associate GP, to start as soon as possible. Aspirations of becoming a trainer or studying for additional qualifications will be welcomed. Our ethos is for excellence in patient care, and to be a great place to work. We still meet as a team for lunch every day. The picture above is the view from our consultation rooms! See our online reviews and family and friends feedback.

**Do you want to join our team? Come and see us for an  
informal visit or call Mrs. Ruth Woodland (Practice Manager)  
on the number below for an informal talk.**
