

# Pharmacy Technician

**Join us in delivering excellent healthcare to our local community – Charlotte Keel Medical Practice**

Located in the vibrant heart of Bristol, Charlotte Keel Medical Practice proudly serves a richly diverse patient community, offering an incredibly rewarding clinical environment. Here, your skills, empathy, and commitment will directly contribute to reducing health inequalities, making healthcare accessible to everyone, and delivering outstanding, patient-centred care.

---

## Why Join Our Team?

### Make a Lasting Impact

- Pharmacy technicians play an important role, complementing clinical pharmacists, community pharmacists and other members of the PCN multi-disciplinary team.
- Pharmacy technicians are different to clinical pharmacists as they are not able to prescribe or make clinical decisions, instead working under supervision to ensure effective and efficient use of medicines.

## Supportive, Collaborative Culture

- Benefit from daily protected 'coffee / lunchtime together' and regular meetings — reflect, recharge, and collaborate closely with your colleagues.

## Flexible, Balanced Working Life

- 22.5 hours (working days to be agreed), fixed term – 2 years

## Recognising Your Value

- Competitive salary (£34,300- £34,800), NHS pension, enhanced pay rates, and medical indemnity cover.
- Generous annual leave entitlement
- Comprehensive wellbeing support, NHS discounts, cycle-to-work scheme, employee assistance programme, and annual discretionary bonuses.

**Join a Leading Social Enterprise** As part of BrisDoc, an employee-owned social enterprise, you'll be empowered as a co-owner to shape the future of healthcare delivery. We're deeply committed to equity, diversity, inclusion, sustainability, and innovation—ensuring your career grows in a direction aligned with your values.

---

## Who We're Looking For

- Registration with the Association of Pharmacy Technicians
  - NVQ Level 3 in Pharmacy Services or Equivalent
  - Experience of working in a patient facing role in clinical pharmacy or pharmacy setting
  - Experience of working with I.T systems Microsoft Office and Clinical Systems
  - Experience of following set procedures and protocols and working to quality standards
  - Experience of working in a busy environment and meeting deadlines
-

## Ready to Make a Difference?
